Volume 22 Issue 2 *Autism Society, Central Virginia* February 2014

May 24, 2014

Registration Opens: February 1, 2014

Get involved:

- Register to run/walk
- Form a team
- Begin a fundraising page
- Find a corporate sponsor for the 5K (sponsorship opportunities are available beginning at \$250. We need your help in helping secure sponsors for the 5K. Who do you know that you could ask?)
- Volunteer

All you need to do is go to www.ascv.org and get started today. Contact us at info@ascv.org if you have any questions or need any assistance.

New for 2014

- Chip Timing – Participants will have the option of choosing chip timing. Only those who are chip timed will have official times for the 5K recorded. Those who do not choose chip timing will not be included on official results, but can time themselves or see their own time on our clock at the finish line.
- Virtual Participants – Are you at the river or beach the weekend of the 5K? You can still be a part of the 5K! Register as a virtual participant and fundraise. You can even form a virtual team!

All funds raised from this event will provide much needed support for individuals with autism and their families in Central Virginia. **All funds raised here, stay here!**

February 7 ASCV Workshop

What's APPening 2014?

Apple ® announced in December that App Store sales topped \$10 billion in 2013, including a record breaking \$1 billion in December alone, when App Store customers downloaded almost three billion apps. The App Store also reached one million live apps in December. With this many apps available, how is one to keep up? What factors should you look into before trying an app? What are some current apps that might support your family member on the Autism Spectrum? The presenters will show a variety of apps and discuss a process for consideration and implementation of iOS devices.

Mona Pruett is currently a Program Specialist with the VDOE's TTAC at VCU. She has been an occupational therapist for over 30 years providing direct service to infants and young children with multiple disabilities. Mona's primary areas of work include providing support to professionals, families and programs in the benefits and use of assistive technology (AT). She also supports individuals and programs in working with students with autism and intellectual disabilities with a focus on accessing curriculum and developing independence.

Sharon Jones is currently a Program Specialist with the VDOE's TTAC at VCU. Sharon's primary areas of work include providing support to professionals, families and programs in the benefits and use of assistive technology (AT) and developing AT services in educational programs. She also supports individuals and programs in working with children and adolescents with autism and their families. Other interests include infant intervention and early childhood special education with an emphasis on involving families in educational programs. As a program specialist at the Training and Technical Assistance Center, she provides consultation, training and long range planning to professionals working with students with disabilities and their families.

Autism Society meetings take place at River Road United Methodist Church, 8800 River Road in Richmond. **Our meetings are free and open to the public.** The library opens at 6:30 p.m. and meetings begin promptly at 7 p.m. To ensure we have enough handouts, we ask that you register here: <https://whatsappening.eventbrite.com>.

A SPECIAL THANKS TO AN OUTSTANDING VOLUNTEER: ANTHONY WILEY

The Autism Society, Central VA could not have accomplished all we have for children, youth, and adults with autism and their families were it not for the generosity of our amazing volunteers. Up until mid-2013, the ASCV was run by one full time staff person and many dedicated volunteers.

One such volunteer is Anthony Wiley who has maintained our website with hundreds of hours donated to the design and updating of the site over the last several years. As we make the change to our new website, we want to recognize the gift of time and talent that Anthony has contributed to the ASCV and our community!

Autastic Avenues

Our mission is to meet the social/emotional, educational and community needs of children and their families through effective education, training, and treatment programs.

We offer services for children to include social skills groups, executive function homework coaching, speech therapy, tutoring, consulting, and more. Children of all ages are welcome, preschool to young adult. We also offer staff development and presentations

RAIN After School

Autism After School and Virginia's Public Schools

- There are currently 14,624 students identified on the Autism Spectrum in Virginia's public schools.
- Most of these students do not have an after school program that meets their specific needs.
- Many will age out of traditional daycare with nowhere to go.

What is Autism?

Autism is a developmental disorder that effects the brain's development of social and communication skills. It is contained within a spectrum and classified by a varying set of behaviors that effect each person differently. There is no known cause.

RAIN After School—"One of A Kind"

RAIN After School, scheduled to open January 6, 2014, is one of a kind in the state of Virginia. Currently there are no other after school programs designed specifically for children on the Autism Spectrum for after school activities that also include their "neuro-typical" peers. Modeled after our successful summer camp, Camp Free2BMe, RAIN's after school program model is a scaled down version of camp using a peer to peer approach.

Purpose of Peer to Peer

The peer to peer support program provides many opportunities for general education students, as well as the students with Autism Spectrum Disorder (ASD). Students learn to relate to people with different needs & develop an increased understanding of individual differences. Student responsibility is also encouraged.

Peer mentors will be matched with a student with Autism Spectrum Disorder (ASD) and asked to assist them during their after school time with socialization and independence skills. We are not asking kids to stop being kids or stop spending time with their peer group, we are asking them to
