

ASCV Scholarship Program

The ASCV offers three types of scholarships to give individuals with autism and their families the opportunity to participate in recreational, social and educational activities. As many families face heavy financial burdens, the added cost of these types of activities often is not feasible. The ASCV developed its scholarship program recognizing the overwhelming need for help with funding social, recreational, and educational activities in the autism community.

1

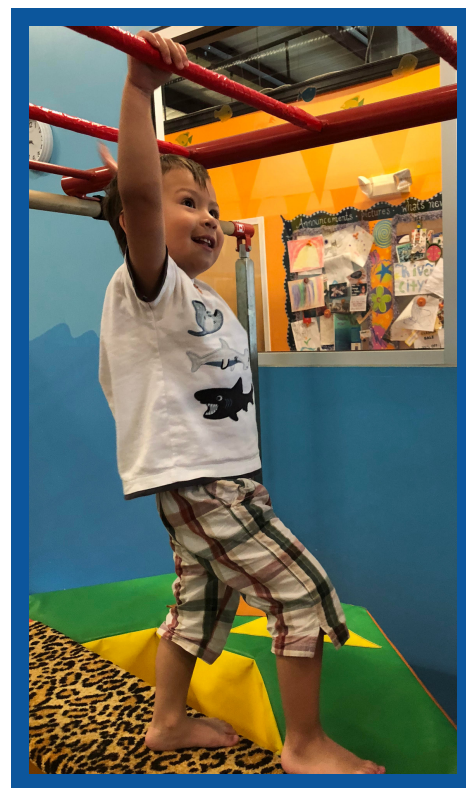

Our **Recreational and Social Scholarship Program** provides funds for individuals with autism to attend activities and programs including camps, social skills groups, recreation leagues, swim lessons, dance lessons, gymnastics, and more.

2

Our **Education Enrichment Scholarship Program** provides families, caregivers and individuals with autism funds to attend conferences, workshops, and webinars, as well as funds for fees associated with various educational endeavors.

3

Our **Membership Scholarship Program** provides individuals and families with an annual ASCV membership. It gives those for whom membership would place a financial burden, the opportunity to participate in the ASCV's member programs.

We're looking forward to participating again this year! And a HUGE thank you to ASCV for making the financial burden a little lighter!

This is our 2nd year in the camp. It keeps a sense of consistency during the summer that is very valuable for my son who is challenged by transitions and changes in schedule.

He went from being VERY afraid of the water to comfortable in the water. Two weeks ago was the first time I saw my son floating in the water.
