

Support the ASCV this April for National Autism Awareness Month

The Autism Society Central Virginia (ASCV) is proud to be the local voice and resource of the autism community in education, advocacy, services, and support. Please partner with the ASCV during National Autism Awareness Month to join us in making an impact in the lives of local children, youth, and adults with autism. Your participation will also highlight your commitment to the local autism community.

There are several ways your business can get involved, including the following:

- Donate a portion of your sales throughout the month, over a specific week, or during a sale event. Or, pick a special merchandise item and donate a portion of the proceeds from each sale of that item throughout the month.
- Run a “round up” campaign at the register. Ask each customer to round up their purchase to the next dollar, which gets donated to the ASCV.
- Host a donation jar at your counter or register.
- Challenge your employees to a fundraising competition and provide prizes.
- Form a team of employees and their families for our upcoming 5K & Family Fun Day (May 18th). Register & fundraise together in April leading up to the event (www.ascv5k.org).
- Display National Autism Awareness Month and ASCV 5K & Family Fun Day promotional materials throughout your business.

For more information and to request ASCV promotional materials, please contact development@ascv.org. We welcome your participation in any form, and we will gladly promote your efforts throughout our network of social media and email campaigns.

Visit www.ascv.org to learn more about our organization.
Thank you for supporting your local autism community!
