

Acceptance Makes Cents

The Autism Society Central Virginia (ASCV) is a local nonprofit dedicated to improving the lives of all affected by autism through education, advocacy, services, and supports. April is National Autism Awareness Month and represents an excellent opportunity to educate about autism and encourage awareness, understanding, and acceptance. We have created "Acceptance Makes Cents" to give students a way to give back to their local autism community by collecting coins. The funds raised from this initiative will help support individuals with autism and families right here in Central Virginia!

A Few Programs Your Donation Will Help Fund:

- Social groups for both teens and adults on the spectrum.
- Activities and events for individuals with autism and their families to network and socialize with one another.
- Monthly bowling outings for individuals of all ages on the spectrum.
- Support groups for parents of individuals with autism.
